SUMMARY

I'm a Product Designer with 5 years of experience in UI/UX and Visual Design. I specialize in leading projects from idea to launch, building design systems, and collaborating with cross-functional teams to create polished, user-friendly digital products.

EDUCATION

Master of Computer Science
University of Hutech (2013 - 2015)

Bachelor of Information System
University of Van Hien (2007 - 2011)

CERTIFICATION

- Google UX Design
- Google AI Essentials
- Foundations of Project Management

EXPERIENCE

Ohmyhotel - Product Designer

01/2025 - 02/2026

- Designed UI/UX for B2C platforms (Ohmyhotel, Ohmytrip) and B2B (hotel management/booking systems) across web and mobile web, ensuring visual and functional consistency with the existing design system.
- Conducted UI testing and closely tracked issues through resolution, working hands-on with developers to speed up bug fixes before release.
- Led A/B testing to compare design options, using results to guide final decisions and improve usability.
- Worked directly and consistently with the Korea-based team and developers to align on requirements early, avoiding costly rework during implementation
- Designed marketing banners, event visuals, and promotional materials that supported ongoing brand and campaign activities.

Key project: AI Approval, Hana Card (bucket travel), B2C (ohmyhotel website), B2B (hotel management & booking system).

Key achievement: Successfully established scalable design operations, improving delivery quality and cross-functional collaboration.

Bravesoft - UI/UX Designer

07/2024 - 04/2025

- Worked directly with teams and clients in Japan to gather requirements, develop design concepts, and refine outputs through iterative feedback.
- Translated project requirements into user flows, wireframes, and prototypes across a range of products.
- Collaborated closely with the design team to align with evolving project goals, and prepared clear documentation for smooth handoffs to developers.
- Designed event and campaign assets (flyers, signage, standees, posters) for multiple clients.

Key project:

- Enterprise & AI solutions: AI document generation tool, Bidirectional translation system (Live Connect), Tokyo Metro fax-replacement system
- Branding & marketing: Bravesoft website, Eventos event materials, Safie Campaign poster.

Key achievement:

- Delivered high-quality graphic design assets for Japanese clients, maintaining 100% on-time delivery and strict adherence to localized brand guidelines.
- Collaberated with cross-functional teams to design and successfully launch key enterprise products, including an AI document-generation tool, a bidirectional translation system, Tokyo Metro's fax-replacement system.

FPT Software - UI/UX Designer

01/2021 - 02/2023

- Designed key parts of the Utop app including new features , payment flows, and the delivery-tracking experience to improve overall usability.
- Built and maintained the Utop web ordering platform, ensuring a consistent experience across devices and platforms.
- Delivered mobile web interfaces for time-sensitive advertising campaigns with major clients, working within tight turnaround times.
- Partnered closely with key stakeholders to ensure design specifications were implemented accurately and consistently.

Key project:

- Utop app, Utop web ordering platform (order.utop.vn).
- Mobile web campaigns for Unilever, Dutch Lady and Acecook.

Key achievement:

- Successfully launched core services within the Utop app, including Utop Market, Utop Business and Utop Insurance.
- Delivered high-impact mobile web campaign interfaces for major brand partners under tight deadlines.

Busmap - UI/UX Designer

03/2020 - 12/2020

- Designed UI/UX for core company products and client platforms across web and mobile applications.
- Collaborated closely with the development team to ensure precise implementation of design specifications.
- Developed concepts and designs for print material, including proposals, backdrops, and brochures.

Key project: BusMap (Web/App), Phenikaa School, bSmartCity, UBCG Hanoi.

Key achievement: Successfully launched specialized management platforms, including a student management solution for Phenikaa School and an apartment management system (bSmartCity).

Vietravel - Software Specialist

06/2016 - 03/2020

- Designed UI/UX for company websites and mobile apps, and converted Photoshop designs into functional static web pages using HTML, CSS, and JavaScript.
- Worked closely with the development team to ensure accurate implementation of designs.
- Designed visual elements and banners for websites and promotional activities.
- Managed internal projects and provided basic IT/office support to keep workflows running smoothly.

Key project: Website travel.com.vn, vietravel.com, vietravelplus.com, eTour management system, Vietravel mobile app.

Key achievement: Led the complete redesign of travel.com.vn, earning high praise from internal stakeholders and customers for delivering an intuitive user experience and a modernized interface.
